

Burger menu top left. Expands to show all of the page sections below

- About me
- Work History
- Skills
- Portfolio
- Download CV

Dotted line shows:
Browser window view

Holly Thomas
Full-Stack Web Developer

Each section headed with an appropriate icon.

- Aria hiding icons, and displaying header text instead.
- onhover:
 - section title is revealed
 - Icon grows slightly larger with a smooth but fast motion.
- onclick:
 - whole section is revealed
 - Only one section can be clicked open at a time

Social media icons in a footer of the same colour as the head element

Teapot image will not be displayed on smaller screens to avoid unnecessary visual clutter

The arrow will behave in a similar way to the icons.

- onhover: It will reveal that there is more underneath
- onclick: It will show the information underneath

About Me

This will be the about me text, it will contain some general information about my background and the reasons I became a developer etc. It will be a mostly professional paragraph with short and to the point information.

Trivia

I love outdoor activities like skating, running, swimming and surfing (though it's tough to surf in Sweden!)

I have written and self published a children's book about time travel and guineapigs.

I was in the Air Cadets as a teenager, and have a licence to fly a two man aircraft (sadly it's no longer valid).

Three items of trivia with icons should be slightly more fun and not specifically related to programming

(possibly six items? that feels like too much)

Will display in column format in mobile view, and drop to only showing two items on a smaller screen (ipad).

CONTINUES

Code here from the Code Institute example website from the previous module

A brief paragraph mentioning the variety of jobs i have had, and some of the commonalities that have run through them, and how they pertain to softwear development

An Unusual Career...

I have worked as a lifeguard, looking after swimmers and administering first aid.

I have worked as a children's entertainer and clown (though sadly I can't juggle any more).

I have worked as a bouncer (security) at clubs, festivals and events.

Thick grey line will clearly mark out where the section ends and the next begins

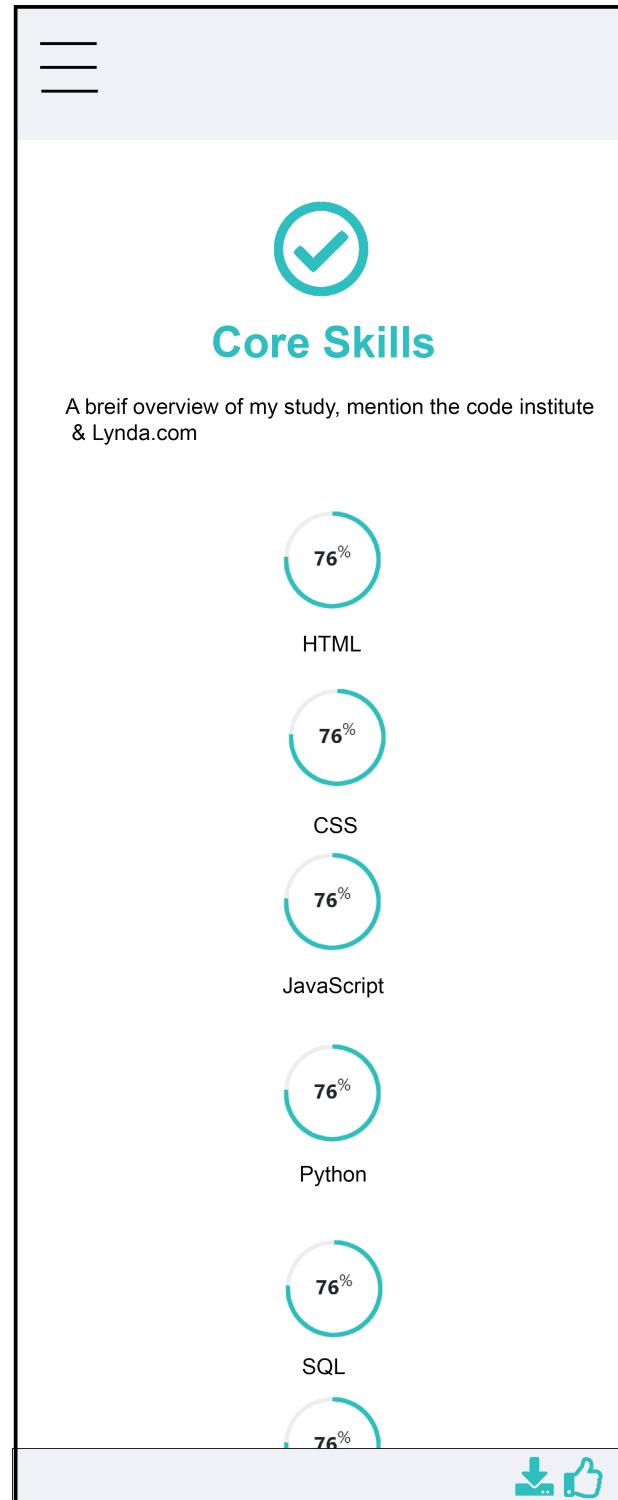

CONTINUED

Code for the skill circles to come from
bootstrapious.com.

onhover: the circles grow slightly larger

not sure how to estimate skill level.. does
completion of the course imply 100%?
(probably not, but then how do i guadge
where i am?)

Soft Skills

Collaboration and teamwork
Empathy and understanding
Passion and problem solving
Giving and receiving Feedback
Self lead learning and continuous improvement
Motivating and empowering those around me
Explaining complex things in a simple way

General Skills

Writing

Technical writing and documentation
Fiction novels & Film and TV scripting

Opens my Github in a target _blank window

The wireframe shows a mobile application interface. At the top is a light gray header bar with three horizontal lines on the left side. Below the header is a white content area. In the center of the white area is a teal circular icon with a white cat silhouette. Below this icon is the word "Portfolio" in a teal sans-serif font. Underneath "Portfolio" are three sections, each consisting of a title, a short description, and two icons. The first section is titled "Website 1" in teal, followed by "Short description of website one". It includes a teal monitor icon and a teal GitHub icon. The second section is titled "Website 2" in teal, followed by "Short description of website two". It also includes a teal monitor icon and a teal GitHub icon. The third section is titled "Website 3" in teal, followed by "Short description of website three". It includes a teal monitor icon and a teal GitHub icon. At the bottom of the white content area is a teal GitHub icon. At the very bottom of the screen is a light gray footer bar containing a teal download icon and a teal thumbs-up icon.
